NEW RIFF 8 YEAR OLD RYE

From our founding in 2014, New Riff Distilling has carefully set back whiskey for long-term aging. This addition to our core lineup of products is the first older expression of our award-winning flagship rye whiskey. It is bottled without chill filtration at 100 proof.

Drawing on our own experience as well as the sour mash traditions of the Kentucky whiskey-making regimen, this rye whiskey is full of character and delivers rich, spicy flavors. The freshness evident here is exceptional, suggesting a barrel of New Riff Rye at eight years old has a long life of aging ahead of it.

While New Riff is committed to bottled-in-bond standards, we made the difficult decision to waive that status for this release, focusing on a wider distribution network than previous specialty releases. Despite meeting all other requirements of a bonded whiskey, due to the comparatively small production from the earliest years of New Riff, this release blends whiskeys from two distilling seasons aged a minimum of 8 years.
